

## CanNeed-GIT-100 Glass Bottle Impact Tester

CanNeed-GIT-100 Glass Bottle Impact Tester is industry standard to test the impact resistance of various glass bottles. There are two ruler readings: impact energy and angle of pendulum bar.

### Technical Parameters

Container dimensions: 4.72 inches to 14.57 inches (120mm – 370mm).

Pendulum weight: 1.34 lbs -1.36 lbs (608g-618g)

Pendulum length to center of gravity: 10 inches (254mm)

Pendulum length to center of striking face: 11.6 inches (294mm)

Maximum calibrated swing: 120 degrees

Energy graduation intervals: 0 to 5 inch-pound; 5 to 22 inch-pound

Velocity graduation intervals: none

Striking height: 20mm minimum; 180mm maximum

Size: 540mm \* 270mm\* 710mm
