

## CanNeed-MB-800 Auto Mashing Device

The CanNeed “CanNeed-MB-800 Auto Mashing Device” is the best choice for beer and malt Laboratory.

### Attributes:

- 8 orifices (optional for 4 / 8 / 16 orifices)
- Auto water-in
- LCD monitor, display the real time temperature and time, can switch to display the temperature curve.
- Program controlled, accurately controls the temperature.
- Mashing cup make from the thick wall stainless steel, smooth and weldless.
- Inside material also stainless steel
- Sink cover is make from polishing stainless steel
- During the mashing process, all temperature and time parameter to be displayed on the screen.
- State-of-the-art components and technology
- Very quiet when running

- State-of-the-art components and technology
- Mashing cup make from the thick wall stainless steel, smooth and weldless.
- Very quiet when running

**Technical data:**

Temperature control	: 40°C, 45°C, 70°C, or any target temperature.
Temperature accuracy	: ±0.1°C
Power supply	: 230V/50HZ
Heating power	: 3kW
Fixed programs	: Malt mashing, mashing force, rice mashing
Optional user-defined Programs	: 6
Temperature range:	: room temperature ~92°C
Max. steps for each program	: 10
Max. time of each program	: 0-99 min.
Heating up speed	: 1°C/min., 0.5~1.5°C adjustable
Stirring speed	: 50~150 rpm, adjustable
